A Fourth Consecutive Record-Setting Year for the UConn Foundation

I am pleased to share the UConn Foundation’s 2023 Annual Report with UConn Nation. Our generous donors set another record, contributing $157.9 million in new gifts and commitments. This was the fourth straight year fundraising reached the highest level in the Foundation’s history, and we are proud to have brought another championship to UConn!

The total includes Elisabeth DeLuca’s $40 million gift to the School of Nursing, which is the largest in the history of the University. The impact of this gift cannot be overstated. It will make the School of Nursing a national leader in the future of nursing education.

More than 22,500 other donors contributed to our success. The $157.9 million total, a 37% increase over the previous year, includes $55.5 million for need- and merit-based scholarships and fellowships, making a UConn education more accessible to undergraduate, graduate, and professional students. Donors also contributed $47.7 million to fund academic programs and $12.5 million to support faculty.

The Division of Athletics continued its winning streak as donations to that area totaled $27.9 million. Support for UConn Health reached $15 million in fiscal 2023, providing critical funding to advance patient care, research, and academic programs.

This Annual Report delves into the many other ways that donors, alumni, and friends made their mark on our University this year. We are grateful to all of you for your generosity and the support you continue to give UConn. Go, Huskies!

Sincerely,

Jonathan Greenblatt
Interim President and CEO

SPENDING ALLOCATION AMOUNTS ARE THE DOLLARS DISTRIBUTED TO SUPPORT THE UNIVERSITY.

ENDOWMENT MANAGEMENT

The UConn Foundation is honored to manage endowed funds in support of the University’s mission. The fiduciary responsibility is carried out by members of the Foundation Board of Directors’ investment committee, foundation management, and staff. The endowment is managed as a single portfolio, but funds are invested in various asset classes to diversify risk. The UConn Foundation distributes 4 percent of the rolling, three-year average of quarterly market values of endowed funds to UConn. This spending policy is intended to provide stable income to the University for its current needs while maintaining the long-term purchasing power of the endowment. Earnings in excess of spending distributions and advancement fees are reinvested to grow the endowment and keep pace with inflation. Conversely, in times of low returns distributions will be suspended if a fund’s market value falls below 15 percent of its historic dollar value in order to preserve capital.

FISCAL YEAR 2023 HIGHLIGHTS

Elisabeth DeLuca, an alum of the School of Nursing, contributed $40 million to the School of Nursing, which is the largest gift in the history of the University. This transformational gift will make the School of Nursing a national leader in the future of nursing education by increasing the nursing class size and helping to address the state and national nursing shortage, the changing nature of health care, and the increasing disparity in health outcomes.

Former Connecticut State Sen. Antonietta “Toni” Boucher ’02 MBA gifted $8 million to create the Boucher Management & Entrepreneurship Department in the School of Business. She also created the Henry “Bud” Boucher Faculty Fellowship in memory of her late husband and added to the Toni Boucher Scholarship Fund, which she established in 2004.

Trisha Bailey ’99 (CLAS) committed a lead gift toward construction of the Bailey Student Athlete Success Center, a state-of-the-art facility for athletic performance and academic support. The gift, the largest ever dedicated to athletics, supports an 80,000-square foot renovation and expansion of the former recreation center and areas within the Hugh S. Greer Field House.

David Gannon ’80 MD established a multimillion-dollar bequest to support students at the School of Medicine. He aims to help alleviate the debt that many students carry after graduation.

A $5 million bequest from James Belmont ’86 (ENG) inspired the creation of UConn’s Nursing and Engineering Innovation Center, which will advance health care, workforce, and economic development through interdisciplinary collaborations. Belmont wanted to demonstrate his appreciation for his UConn education and that of his sister, Gail Belmont-Harwood ’81 (NUR).

FINANCIAL STATEMENT OVERVIEW

Prepared by
David L. Carney, CFA
Senior Vice President of Finance & Administration and Chief Financial Officer

A fourth consecutive year of record fundraising results for the Foundation brought total new gifts and commitments for fiscal year 2023 to $157.9 million, a 37 percent increase from the record set the previous year. This increase was highlighted by a transformational $40 million gift to the School of Nursing, the largest gift in UConn’s history, which is expected to make the School of Nursing a national leader in nursing education. Giving for student support once again represented almost half of all fundraising for the year, with philanthropic support for capital projects, faculty, research, and other University programs also contributing significantly.

The investment climate also proved more favorable than that of the previous year, improving the performance of the Foundation’s investments year-over-year. U.S. inflation began moderating, raising the probability of a “soft landing” and thus allowing the Fed to curb its pace of rate increases, and even begin to consider future rate cuts. Global stocks were up by 17 percent for the fiscal year and global bonds even eked out positive total returns despite the largest and fastest increase in yields in the last 20 years.

Against this favorable backdrop of record fundraising and better investment performance, the Foundation recorded an $84 million increase in total revenues, as reflected in the Statement of Activities. The growth in contributions (up $42.1 million, including the aforementioned gift to the School of Nursing) and the improvement in investment returns ($44 million) each contributed substantially to this increase. On the expense side, expenditures for University program support grew by 31 percent, driven primarily by large increases in both student and faculty support. Expenses for Foundation operations were up 24 percent, largely attributable to increased fundraising activities and resources in the first full post-COVID fiscal year.

These factors combined to produce a $44.2 million increase in net assets during the year, as indicated in the Foundation’s Statement of Financial Position. Assets increased by $46.8 million, primarily due to a commensurate increase in pledges receivable (net of reserves). The School of Nursing gift accounted for most of this increase. Investments, in both endowed and operating funds, declined nominally as disbursements for University support slightly exceeded investment returns and net donor inflows. On the liabilities side, the Foundation repaid all its external debt financing during the year.

At fiscal year-end, the Foundation reported record net assets of $752 million, a 6.2 percent increase from the previous year. Foundation net assets have grown by 9.3 percent, 7.1 percent, and 6.2 percent on an annualized basis over the past three-, five-, and ten-year periods, respectively.

Report of Independent Auditors

To the Board of Directors of The University of Connecticut Foundation, Incorporated

Opinion

We have audited the accompanying financial statements of The University of Connecticut Foundation, Incorporated (the "Foundation"), which comprise the statements of financial position as of June 30, 2023 and 2022, and the related statements of activities, and of cash flows for the years then ended, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2023 and 2022, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation’s ability to continue as a going concern for one year after the date the financial statements are issued.

Auditors’ Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.
In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises UConn Foundation 2023 Annual Report, but does not include the financial statements and our auditors’ report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

The University of Connecticut Foundation, Incorporated  
Notes to the Financial Statements  
June 30, 2023 and 2022  

1. Summary of Significant Accounting Policies  

A. Organization  

The University of Connecticut Foundation, Incorporated (the "Foundation") was established in 1964 as an independent, privately governed, not-for-profit corporation, chartered under the laws of the State of Connecticut. 

The Foundation’s mission is to strengthen the University of Connecticut (the “University”), one relationship at a time. The Foundation fulfills this mission primarily through fundraising, asset management functions, and alumni relations. The Foundation solicits and accepts donations of property, money and securities, and invests and administers such assets. The Foundation disburses funds in accordance with the terms under which they were given to aid, supplement, improve, and enlarge the educational, cultural, recreational, and research activities and facilities of the University. 

B. Basis of Presentation  

The financial statements of the Foundation have been prepared on the accrual basis of accounting and include the Foundation’s assets, liabilities, net assets, revenues, and expenses for the years ending June 30, 2023 and 2022. 

Net assets, revenues and expenses are classified based on the terms of donor-imposed restrictions, if any. Accordingly, the net assets, revenues, and expenses of the Foundation are classified and reported as follows:  

Net assets without donor restriction – Net assets that are not subject to donor-imposed restrictions, or for which the donor-imposed restrictions have expired or been fulfilled. Net assets in the category may benefit the Foundation and include board designated restrictions to support the University. Expenditures are reported in this classification of net assets since the use of donor-restricted contributions in accordance with the donor’s restrictions results in the release of the restriction. 

Net assets with donor restrictions – Net assets that are subject to donor-imposed purpose and use restrictions to benefit a specific unit, department, or program of the University that have not yet been met. The donor-imposed restrictions may be temporary in nature or may be perpetual. 

C. Use of Estimates  

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results could differ from those estimates. The Foundation’s significant estimates include the valuation of its investments, the collectability and present value of receivables, and the present value of the liability for future payments related to trust and annuity agreements.
D. Contribution Revenue Recognition

Philanthropic commitments are recognized as revenues when unconditionally pledged, or when a condition on a gift or pledge is met. Outright contributions are recognized as revenue when received. Gifts of real estate, buildings and equipment, marketable securities, and other donated property are recorded at their estimated fair value on the date of the gift.

Gifts are reported as with donor restrictions if received with donor restrictions that designate the use of donated assets as to purpose or time.

Pledges receivable represent outstanding unconditional promises by donors to make contributions to the Foundation. Unconditional promises to give that are expected to be collected within one year of the statement of financial position date are recorded at face value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated realizable future contribution amounts. The discount rates used to determine present values are an interest rate that reflects fair value applicable to the year in which the promises to give were received; the amortization of the related discount is subsequently included in contribution revenues. Contribution revenue recorded from pledges (refer to Note 2) is reflected in without donor restrictions and with donor restrictions, depending on donor restrictions, if any.

The Foundation uses a combination of specific reserve and estimate of remaining uncollectible accounts to determine the total allowance for uncollectible pledges. As of June 30, 2023, the estimate of remaining uncollectible accounts was 1% on pledges without donor restriction pledges, 1% on endowment non-athletic pledges, 3% on non-endowed non-athletic pledges, 10% on endowment athletic pledges and 3% on non-endowed athletic pledges.

Conditional promises to give are not recorded as revenue until they become unconditional, which is when the conditions on which they depend are substantially met.

E. Cash and Cash Equivalents

The Foundation generally considers short-term, highly liquid financial instruments to be cash equivalents. Cash equivalents consist of time deposits and short-term investments with maturities of 90 days or less at the date of purchase. Cash equivalents are stated at cost, which approximates fair value. Short-term investments that are discretionary components of long-term portfolios managed by professional investment management firms hired by the Foundation are classified as investments (refer to Note 3).

F. Investments

Investments are reported at fair value. In accordance with the accounting pronouncement on fair value measurements, fair value is defined as the price that the Foundation would receive upon selling an investment in an orderly transaction between market participants in the principal or most advantageous market at the measurement
A three-tier hierarchy is established, based on inputs to valuation techniques, to maximize the use of observable market data and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the investment, including assumptions about risk. Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the investment based on market data obtained from sources independent of the Foundation. Unobservable inputs are inputs that reflect the Foundation’s own assumptions about the assumptions market participants would use in pricing the investment based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

- **Level 1** – Quoted prices (unadjusted) in active markets for identical investments that the Foundation has the ability to access at the measurement date. This level of the fair value hierarchy provides the most reliable evidence of fair value and is used to measure fair value whenever available.

- **Level 2** – Inputs other than quoted prices included within Level 1 that are observable for an investment. These inputs include quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, and inputs other than quoted prices that are observable for the investment, for example interest rate and yield curves, volatilities, prepayment rates and credit risk among others. These are inputs that are derived principally from or corroborated by observable market data by correlation or other means. Certain investments defined as Level 2 are in the form of commingled funds, the shares of which are not publicly traded, where the valuation of the underlying securities held in the fund is taken from quoted prices in active markets.

- **Level 3** – Inputs that are unobservable inputs for the investment that are used to measure fair value when observable inputs are not available. Unobservable inputs reflect the Foundation’s own assumptions about the assumptions that market participants would use in pricing the investment. These inputs are developed based on the best information available in the circumstances, which might include the Foundation’s own data.

Certain investment funds are measured at fair value using net asset value (NAV) or its equivalent (practical expedient) to estimate the fair value. The Foundation uses NAV to determine the fair value of investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. As of June 30, 2023, investments whose fair values are not readily determinable using NAV accounted for 66% of all investments. Because they are not readily determinable, the fair values may differ from the values that would have been used had a ready market for these investments existed.
Net investment return (defined as dividends, interest, and net realized and unrealized gains and losses on investments, net of investment management fees), is reported as follows:

Unrealized gains and losses that result from market fluctuations are recognized in the period in which the fluctuations occur;

As increases or decreases in net assets with donor restrictions if the terms of the underlying endowment funds designate the purpose for specific unit, department or program of the University, or otherwise stipulated by the donor;

As increases or decreases in net assets without donor restrictions if the terms of the underlying individual endowment funds and gifts are Board designated;

As increases or decreases in net assets without donor restriction if the terms of the underlying individual funds and gifts are non-endowed; or

As increases or decreases in net assets with donor restrictions if there is a change in the present value of an annuity or trust due to the passage of time or changes in actuarial life expectancies.

Investment in University of Connecticut Research and Development Corporation

The Foundation was the sole shareholder of the R&D Corporation, a for-profit corporation duly established in the State of Connecticut in 1984. On December 31, 2015, the Foundation divested its interest in the R&D Corporation, which was transferred to The University of Connecticut, a related party, without compensation.

The agreement with the University allows the Foundation to retain a continuing interest in the underlying companies owned by the R&D Corporation on the divestiture date. The Foundation will derive income equal to 10% of sales and 30% of royalties. The Foundation may use 50% of any royalty revenue interest and 100% of sales to support the Foundation’s mission. The remaining will be designated to support technology commercialization at the University of Connecticut. For the years ended June 30, 2023 and 2022, the Foundation did not receive any royalty or sales revenue and does not expect any amounts to be received in the future.

G. Endowment Spending Allocation and Advancement Fee

The endowment spending policy adopted by the Foundation's Board of Directors, in conjunction with the Investment Policy Statement for the long-term pooled investment portfolio, which is predominantly endowment assets, is designed to provide reliable growth in annual spending allocation levels and to preserve or increase the real value of the endowment principal, over time. To meet these objectives, the Foundation utilizes a total return investment approach, with total return consisting of interest and dividends, and realized and unrealized gains and losses, net of investment management fees.

The spending allocation distributed in support of designated purposes was $21,891,014 and $20,083,657 for the years ended June 30, 2023 and 2022, respectively.
The Foundation’s endowment spending allocation policy was enacted in accordance with the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA considers prudence in maintaining an endowment fund in perpetuity. Spending can occur from an endowment fund whose fair value is below its historic value, as long as the governing body has determined that its policies will continue the perpetual nature of the endowment over time.

The amount of funds allocated for expenditure for the purposes for which an endowment was established (“spending allocation”) will equal 4% annually (1% per quarter) of the rolling prior 12-quarter average fair value on a unitized basis. The corresponding calculated spending allocations are distributed in equal quarterly installments on the first day of each quarter from the accumulated net total investment return for individual endowment funds where available, otherwise from principal.

Endowment established after July 1, 2017, will not participate in the long-term pooled investment portfolio until the principal amount is equal to or greater than the minimum needed to establish an endowment. The new fund will participate in the long-term pooled investment portfolio on the last day of the quarter after meeting the minimum amount. The spending allocation and endowment advancement fee, discussed below, will not be distributed until the endowment fund has participated in the long-term pooled investment portfolio for two full quarters.

An advancement fee is assessed to fund expenses incurred in meeting the Foundation’s fiduciary and fundraising responsibilities to donors and the University. This on-going advancement fee is also assessed based on a rolling 12 quarter unitized fair value. Effective on July 1, 2020, this rate was 1.75%. The calculated fee is charged in equal quarterly installments on the first day of each quarter from the accumulated net total investment return for individual endowment funds where available, otherwise from principal.

Neither the spending allocation nor the endowment advancement fee will be distributed from endowments that have an historic gift value that is 15% or more than the fair value (referred to as underwater fund), at the end of any quarter during the fiscal year. (refer to note H)

In order to ensure the Foundation preserves the purchasing power of the endowment pool, the endowment spending allocation and advancement fee taken together cannot exceed 6.5% or fall below 3.0% of the fair value of endowment funds. Should this occur, the calculated amounts will be decreased or increased, respectively, on a pro rata basis.

H. Net Asset Treatment Associated with Endowment Returns

To the extent that the fair value of assets associated with individual donor-restricted endowment fund is less than the historic gift value, the deficits are reported as decreases in net assets with donor restrictions, or if the endowment is a board designated endowment they are reported as decreases in net assets without donor restrictions, in accordance with accounting standards on not-for-profit investments. The number of funds underwater was 201 and 56 as of June 30, 2023 and 2022, respectively. The
I. Funds Held in Trust by Others

The Foundation is the remainder beneficiary of various charitable remainder trusts that are managed by third parties. At the end of the charitable remainder trust term, the Foundation will receive a specified portion of the assets remaining. The Foundation is also the named beneficiary of various perpetual trusts, under which the Foundation will receive a distribution of income and will never receive the assets of the trust. At the time the Foundation is notified of the funding of the trust, the Foundation records contribution revenue equal to the estimated discounted value of the distribution expected to be received upon the termination of each trust. Thereafter, the Foundation records adjustments to the estimated fair value of the trusts assets as investment income. The discount rates used range from 2.78% to 4.03% for 2023 and 2.53% to 3.82% for 2022.

Following is a reconciliation of funds held in trust by others. The assets are considered Level 3 financial instructions (refer to Note F for discussion of fair value measurements)

J. Trusts and Annuities Held by the Foundation

The Foundation is named as the trustee and remainder beneficiary of several charitable remainder trusts and as trustee, the Foundation is required to make distributions to the specified income beneficiaries based on the income earned on the trust assets. The Foundation has also entered into contracts for charitable gift annuities and is required to make fixed payments to the specified life income beneficiaries. On the date the trust or annuity is established, the Foundation records contribution revenue equal to the difference between the fair value of the trust and the estimated present value of the distributions to be made to the life income beneficiaries over the term of the trusts. Distributions, investment activity and amortization the discount to present value are recorded as investment income. At the end of the trust and annuity term, the remaining asset will be transferred to the Foundation to support the University, as directed by the donor.

These trust and annuity asset amounts are carried at their net present value and are included in investments. The net assets are included in either the net asset with donor restrictions or without donor restrictions classifications based on the existence or absence of donor restrictions. The difference between the amounts contributed to
establish a charitable remainder trust or charitable gift annuity and the present value of the liability for future payments to donors, determined using actuarial life expectancies and discount rates ranging from .4% to 8.4% for June 30, 2023 and 2022, is recognized as contribution revenue at the date of the gift.

K. Property and Equipment for Operations

Property and equipment are stated at cost. Depreciation of property and equipment is recorded to expense on a straight-line basis over their estimated useful lives which range from 3 to 40 years. Expenditures for repairs and maintenance are expensed as incurred. Costs directly related to software development and acquisition, are capitalized until the asset is placed in service and then amortized over respective useful life.

L. Retirement Plan

The Foundation sponsors The University of Connecticut Foundation, Inc. Retirement Annuity Plan (the “Plan”), which is a fully funded, qualified plan under Section 403(b) of the Internal Revenue Code. The Plan covers all full time and certain part time employees, excluding students. Participants are required to contribute 3% of regular salary, with the Foundation contributing 8% of each participant’s salary. Participants are subject to three-year cliff vesting for Foundation contributions to the plan. Effective July 1, 2019, the vesting requirement is waived for terminations due to job eliminations. The unvested amount as of June 30, 2023 is $613,650. Included in Foundation support expenses are Plan contributions of $1,261,027 and $1,101,858 for the years ended June 30, 2023 and 2022, respectively.

M. Income Taxes

The Foundation has a letter of exemption from federal income tax from the Internal Revenue Service under Section 501(c) (3) of the Internal Revenue Code. Due to certain investments, the Foundation does have unrelated business income, however the federal and state tax liabilities have been immaterial. The Foundation has appropriate support for any tax position taken and believes it does not have any uncertain tax positions that are material to the financial statements.
2. Pledges Receivable, Net

Conditional pledges of $19,654,118 at June 30, 2023 are reported when the condition has been met. Bequest expectancies totaling $249,980,664 have also been excluded from these amounts and are not recorded in the financial statements.

3. Investments

The investment portfolio is shown below at fair value by investment asset class and hierarchy. Investments measured using NAV are not classified in the fair value hierarchy. The amounts presented in the table are intended to permit reconciliation of the hierarchy to the statement of financial position for operating and endowed investments.

Operating investments are invested in level 1 assets that include a short duration bond portfolio and preferred stocks. The bond portfolio is diversified across treasury bonds, investment grade corporate bonds, high yield short duration corporate bonds, and asset backed securities. The portfolio maintains an average credit quality above BBB.

Net asset values provided by third parties have been utilized in determining fair value. Fund managers utilize outside pricing services and administrators as well as their own internal valuation models in determining and verifying fair values. The Foundation performs ongoing due diligence with the fund managers that include evaluation of manager operations and valuation procedures, site visits, investor calls, review of manager filings, and audited financial statements among other items.
Certain investment funds may have agreements that contain funding commitments and redemption terms and restrictions. The following table summarizes the unfunded commitments and the redemption frequency:

Drawdowns will bear interest at the variable rate equal to the Term Secured Overnight Financing Rate Daily Reset plus sixty basis points. The monthly fee on the unused portion of the revolving loan note is twenty-three basis points. The Foundation incurred $41,875 in unused line fees. The Foundation did not utilize any of the available funds as of June 30, 2023. Under the loan agreement the Foundation is also required to maintain a deposit relationship and/or other services with Webster Bank. On June 30, 2023, the Foundation maintained $5,000,000 in deposit accounts to meet the contractual requirement.

The Foundation’s endowment net assets consist of approximately 1,980 individual funds established for a variety of purposes and the following where the assets have been designated for endowment: pledges receivable, charitable remainder trusts and charitable gift annuities. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments.

The Board of Directors of the Foundation has interpreted Connecticut UPMIFA as requiring prudent management of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions a) the original value of gifts donated to the permanent endowment, b) the original value of subsequent gifts to the permanent endowment, and c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. In accordance with Connecticut UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1) The duration and preservation of the fund
2) The purposes of the Foundation and the donor-restricted endowment fund
3) General economic conditions
4) The possible effect of inflation and deflation
5) The expected total return from income and the appreciation of investments
6) Other resources of the Foundation
7) The Foundation’s investment policies

With Donor Restrictions: 2023: $577,688,205 2022: $608,185,811

Endowment assets are long-term in nature and managed as such on a total return basis. There are certain short-term considerations in constructing the endowment investment portfolio, such as spending allocations and advancement fee. However, the assets can tolerate a reasonable level of short-term volatility in the interest of maximizing long-term performance. In order to attain the varied investment objectives, a proper balance must be struck between return and risk. With a proper risk/return profile, the Foundation believes maintaining real purchasing power of the spending allocation and meeting annual funding needs can be achieved over time through the asset allocation and spending policies adopted by its Board of Directors.

The Foundation utilizes a diversified asset allocation consisting of: growth strategies (primarily equity-based investments); inflation hedging strategies to protect against inflation and provide purchasing power (strategies with significant correlations to inflation); and risk minimizing strategies to reduce volatility and preserve capital (fixed income and other strategies with low correlations to equities). Investment returns are achieved through capital appreciation (realized and unrealized) and current yield (interest and dividends).

10. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor restrictions or other restrictions limiting their use, within one year of the statement of financial position date are comprised of the following:

<table>
<thead>
<tr>
<th></th>
<th>2023</th>

</tr>
<tr>

</tr>
</tbody>
</table>

The Foundation’s unrestricted investments represent non-endowed assets that are not designated to a specific unit or purpose and can be used by the Foundation at any time. The assets are invested in short-term investments determined by the Foundation’s investment policy.
Many of the Foundation’s liabilities may be funded by financial assets with donor restrictions, which are not included in the liquidity table above.

11. Expenses by Nature and Function

Expenses are presented by functional classification in accordance with the overall service mission of the Foundation. Each functional classification displays all expenses related to the underlying operations by natural classification.

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include depreciation and interest (included in facilities and equipment expense), which are allocated on a headcount basis.

The University of Connecticut Foundation, Incorporated
Notes to the Financial Statements
June 30, 2023 and 2022

12. University Support

The Foundation, at the direction of its donors, makes payments on behalf of or directly to the University in support of the University’s mission. Such amounts are classified as University Program Support in the statement of activities and in Note 11. There are two primary sources of Foundation funds available to the University: charitable gifts and philanthropic grants included in contributions to the Foundation that are immediately available for expenditure, and spending allocation from the accumulated investment earnings of individual endowment funds (Note 1G). Total funds disbursed by the Foundation in support of the University in accordance with the donated purpose were $46,909,407 and $35,880,561 for the years ended June 30, 2023 and 2022, respectively. The University determines the amount of support that will be requested from the Foundation based on the amounts available to be spent.

13. Related Party Transactions

In December 1994, the Foundation assumed primary responsibility for the fundraising program conducted for the benefit of the University and, in June 1995, the Foundation assumed responsibility for related advancement services. The relationship, roles and arrangements between the Foundation and the University are documented in an Agreement dated July 1, 2015 (the "Agreement"), and in a Memorandum of Understanding (the "MOU"), which is updated on a one- or two-year basis. In payment for fundraising and other services outlined in the MOU, the Foundation recorded revenue from the University of $7,164,799 and $9,315,000 for the years ended June 30, 2023 and 2022.

The University of Connecticut Foundation has a contractual arrangement with the University of Connecticut to act as the University’s agent in managing their endowment assets. The pool is managed under the same policies as the Foundation’s endowment pool but may have a different asset allocation. The Foundation has elected to disclose the fair value of the endowment assets on the balance sheet with an offsetting liability. The University’s endowment had a fair value of $18,808,177 and $17,423,725 as of June 30, 2023 and 2022, respectively.

In April 2015, the Foundation assumed primary responsibility for alumni engagement activities for the University. The Foundation focuses on strengthening the connection with alumni with the University over their lifetime. The University has granted the Foundation rights to use the Alumni Center at the cost of $1.00 rent per year in perpetuity. In payment for alumni engagement outlined in the MOU, the Foundation recorded revenue from the University of $2,835,201 for the years ended June 30, 2023 and 2022.

The Foundation has recorded a liability due to the University of $14,887,302 and $8,977,389 and to the University Health Center of $605 and $108,982 for disbursement requests as of June 30, 2023 and June 30, 2022 respectively. The liabilities to the University and the University Health Center are included in accounts payable and accrued expenses in the accompanying statement of financial position. In addition, at the request of the University of Connecticut’s Board of Trustees, the Foundation's Board of Directors agreed in 1996 to help fund a deferred compensation package for the University's former President which is included in the Foundation accounts payable and accrued expenses in the accompanying statement of financial position. The liability was $262,905 and $260,652 as of June 30, 2023 and 2022, respectively.
The University of Connecticut Foundation, Incorporated
Notes to the Financial Statements
June 30, 2023 and 2022

The Foundation has recorded $23,140 and $0 due from the University at June 30, 2023 and 2022, respectively.

The Foundation office building is owned by the Foundation and was constructed on approximately 1.58 acres of land owned by the University, which the University has leased to the Foundation pursuant to the terms of a ground lease (the “Lease”) at an annual rental of $1.00. The initial term of the Lease is ninety-nine years and the Foundation has the right to extend the term of the Lease for ninety-nine additional years. The Lease provides that at its expiration or earlier termination, unless it is extended, the Foundation shall surrender the premises, and title to the building will then vest in the University. The Lease may be terminated by the University upon a breach by the Foundation of any of the terms and conditions of the Lease. The University must notify the Foundation of any such breach and allow 30 days for the Foundation to cure the breach.

14. Subsequent Event

Management has evaluated subsequent events for the period after June 30, 2023, through October 30, 2023, the date which the financial statements are issued, and determined there are no items to disclose.

amended and restated in its entirety by the execution of this Second Amended and Restated
Master Agreement dated effective July 1, 2020 (this “Agreement”), entered into between the
University and the Foundation:

1.0 Relationship of the Parties

1.1 The University and the Foundation acknowledge that the University is a constituent unit
of the State of Connecticut’s system of public higher education, as defined in CONN.
GEN. STAT. §10a-1, and is responsible for the governance and administration of all the
schools, colleges, divisions and departments of all the University’s campuses (including,
without limitation, the University Health Center); and the Foundation is an independent
Connecticut non-stock corporation exempt from federal taxation under Section 501(c)(3)
of the Code, and a “foundation” as defined under CONN. GEN. STAT§ 4-37c(2); that
each entity is governed by separate governing boards; that each entity is permitted only to
deposit funds to their respective accounts which are properly designated for that specific
entity; and that each entity is subject to separate accounting, disbursement, and disclosure
requirements as a matter of internal governance regulations and applicable state and
federal law.

1.2 The Foundation and University are each independent entities and agree that neither shall
have any liability for the obligations, acts or omissions of the other party, or the other’s
trustees, directors, officers, employees and agents.

1.3 The Foundation will be governed, in accordance with its bylaws as amended from time to
time, by a volunteer board of elected directors, which includes the following ex-officio
non-voting (except as otherwise indicated) directors: the President of the University, the
University’s chief academic officer, a senior administrator from the University Health
Center, the chief financial officer of the University, a chief administrator from the
Department of Athletics, the Chair of the Institutional Advancement Committee of the
University Board of Trustees or any other member of the Institutional Advancement
Committee as designated by the Chair of the Institutional Advancement Committee, the
President of the Foundation (voting), a student enrolled at the University and elected by
enrolled students, and a faculty member of the University (elected by the faculty). With
respect to the University positions serving as ex-officio members of the Foundation board
of directors, the positions will be identified consistent with titles in the University’s
bylaws as amended by the University from time to time. The Foundation reserves all rights and powers granted to it under its charter and bylaws, the Connecticut non-stock corporation law and federal law.

1.4 This Agreement provides the terms and conditions of the relationship between the University and Foundation. From time to time, but in no event less frequently than once every five years, the Foundation and University will enter into statements of work (each, a “SOW”) which outline the specific fundraising, investment management, alumni relations activities and other related goals and objectives that the University and Foundation have agreed upon and the annual amount agreed to be paid (if any) to the Foundation for each fiscal year (Fiscal Year: July 1 – June 30) in consideration of the Foundation’s fundraising, investment management, alumni relations and other related services described in this Agreement.

1.5 The University and the Foundation will use their best efforts to ensure that Foundation activities contemplated by this Agreement comply with the Internal Revenue Code, particularly, Section 501(c)(3) and its regulations, and applicable state law, including without limitation CONN. GEN. STAT. § 21a-175 et seq.

1.6 The Foundation in its discretion will assign Foundation employees to work primarily with the University’s alumni and other potential donors and with the administration and faculty of particular University schools, colleges and programs for the activities contemplated by this Agreement. The Foundation agrees that it will collaborate with the Deans and Directors of such schools, colleges, and programs in establishing objectives and performance expectations of such employees. The employees will also be permitted to perform general advancement and alumni relations work as requested by the school, college and program and agreed to by the Foundation. As an independent organization the Foundation has the authority to hire employees and otherwise develop its own human resources infrastructure and compensation policies to accomplish the mission of the Foundation.

1.7 At times the University may request the use of financial services of the Foundation to facilitate special fundraising or alumni events or other University projects, in accordance with best practices, that extend beyond the normal fiscal functions of the Foundation contemplated by this Agreement, to deposit and account for private gifts and to process routine disbursements. In such cases, the University shall request prior approval from the Foundation for the use of these services. The parties agree that the Foundation will be entitled to reasonable and appropriate compensation for such services. The University and the Foundation agree to make no commitment to a third party on behalf of the other without expressed prior written permission of such other party.

2.0 Fundraising Services

2.1 The University designates the Foundation as the primary entity to raise private financial support, manage philanthropic assets, and steward donors in support of the University. All University fundraising shall be directed by the Foundation. The parties will work
closely to create a culture of philanthropy and provide the transformational support necessary for UConn to achieve its aspirations within all of the University’s schools, colleges, athletic programs and the University Health Center. The University will engage the Foundation in strategic planning to develop University and unit priorities, long-range goals and associated fundraising needs. The University will advise and include the Foundation in matters related to the University’s marketing, branding and other communications strategies to the extent that they are relevant to the Foundation’s mission of supporting the University.

2.2 As set forth in a SOW entered into between the parties from time to time, the Foundation will use its best efforts to increase total voluntary support (gifts raised by the Foundation, the UConn Law School Foundation, and the University (including non-governmental philanthropic research grants)); the Foundation will strengthen its principal, major, planned, and corporate and foundation giving programs; and the Foundation will also use its best efforts to enhance prospect identification, alumni participation rates, donor retention rates, and volunteer engagement.

3.0 Acceptance and Stewardship of Gifts

3.1 The Foundation will in its discretion establish and maintain gift acceptance policies. The Foundation shall make its best efforts to ensure that any monies received by the Foundation and defined in CONN. GEN. STAT. § 4-37g as “funds for deposit and retention in state accounts” are transferred to the University in a timely manner. The University and Foundation will jointly develop and maintain guidelines for determining the proper deposit of funds.

3.2 The Foundation will provide receipts and acknowledgments, as required by the Code, for all private gifts made for the benefit of the University, including gifts that will be assets of the University.

3.3 The Foundation will be responsible for coordinating University and Foundation activities related to thanking, acknowledging and stewarding donors. The University will assist the Foundation in such activity by, without limitation, providing to the Foundation, upon request, appropriate information on the use of charitable funds by the University.

3.4 The Foundation owns a private home located at 61 Scarborough Street in Hartford, Connecticut (“Foundation House”). The primary purpose of Foundation House is to advance the mission of the Foundation in support of the University by supporting fundraising, stewardship and engagement activities. For so long as the Foundation chooses to own Foundation House, it may be made available by the Foundation, in its discretion, to the University in support of University business under the terms of a separate agreement between the parties establishing terms and conditions for Foundation House’s use.

3.5 As appropriate, and in the best interest of the University, the Foundation in its discretion and in consultation with University Communications will be responsible for arranging
Agreement between UConn and the UConn Foundation continued

press conferences, releases, print, web, radio, and television communications to acknowledge significant gifts to all University schools, colleges, departments and units.

4.0 Investment of Funds

4.1 The University and the Foundation entered a separate Endowment Management Agreement, dated April 28, 1996, authorizing the Foundation to manage endowed funds donated directly to the University as the University’s agent. This Agreement replaces and supersedes the Endowment Management Agreement in its entirety. The University designates the Foundation as the investment manager of all University endowment and quasi-endowment fund assets. The Foundation will in its sole discretion maintain and modify investment and spending policies for such University endowment fund assets and for all Foundation assets (both endowed and non-endowed) that adhere to applicable federal and state laws, including the Uniform Prudent Investor Act (CONN. GEN. STAT § 45-541 et seq.) and the Uniform Prudent Management of Institutional Funds Act (CONN. GEN. STAT. § 45a-535 et seq.). The Foundation as agent for the University in managing University endowment fund assets shall also have the following powers:

(a) To invest and re-invest the University endowment assets in such securities and property as are from time to time legal investments for the Foundation;

(b) To purchase, manage and sell property;

(c) To exercise all conversion and subscription rights pertaining to any property;

(d) To exercise all voting rights with respect to any investment and to grant proxies, discretionary or otherwise;

(e) To cause any investments to be registered and held in the name of one or more of its nominees, or one or more nominees of any system for the central handling of securities, without increase or decrease of liability;

(f) To collect and receive any and all money and other property due to the University endowment assets and to give full discharge therefore;

The Foundation will, in its discretion, establish and achieve a reasonable endowment benchmark rate of return based on prudent levels of risk, targeted spending and an inflation factor calculated over a relevant rolling period. Such returns may also be benchmarked, in the Foundation’s discretion, for a risk adjusted return defined by strategic asset allocation policy long-term targets using measurable market and manager benchmarks. Specific benchmarks may be identified in a SOW.

4.4 The Foundation also agrees that it will act as the University’s agent for gifts of securities or other non-cash gifts that are donated to the University with the intention to be liquidated.

4.5 The Foundation will maintain such reasonable operating reserve as it determines appropriate to ensure continuity of its business operations in periods of economic uncertainty.

5.0 Expenditure of Funds

5.1 The University will use its best efforts to ensure that all available Foundation funds are timely utilized in accordance with donor intent. The Foundation has committed itself to administering its programs and operations in a manner that merits a high level of trust and confidence.

Foundation directors are expected to conduct themselves honestly, ethically, and fairly. They are further expected to fulfill their responsibilities and carry out their duties in such a manner as to inspire and assure the confidence of fellow directors, officers, employees, donors, alumni, University faculty and administrators, friends of the University and all others with whom the Foundation transacts business.

The Foundation acknowledges that there are many ambiguous situations that may arise due to the size and complexity of the organization, the diverse nature of the operations of the Foundation, and the variety of organizations doing business with the Foundation. Situations may arise in which a director may find that his or her interests are in conflict with those of the Foundation and/or that making the proper decision about a particular situation is difficult. On such occasions, the director should seek appropriate guidance from the Chair of the Nominating and Board Governance Committee (“NBG Committee”) to assess whether the situation is one that could appear to compromise a director’s independence and should not rely solely on the director’s own judgment. It is important to the work of the Foundation that its directors avoid even the appearance of impropriety, as well as actual impropriety. This document sets forth the policy, guidelines, and procedure for addressing such conflicts and situations.

Applicable Laws
As a not-for-profit corporation, the Foundation must operate within the laws and regulations of both federal and state government. It is the responsibility of the Foundation’s General Counsel, in consultation with outside counsel, to inform the Foundation of these laws and regulations and of any changes. Directors are expected to fulfill their responsibilities and conduct their activities on behalf of the Foundation within the letter, spirit, and intent of applicable laws and regulations.

Foundation Ethics
The Foundation endorses and subscribes to the CASE Statement of Ethics for institutional advancement professionals as developed under the leadership of the Council for Advancement and Support of Education, a copy of which is attached.

Duty of Care
Foundation directors owe a duty of care to the Foundation and shall discharge their duties as directors, including as members of a committee: (1) in good faith; (2) with the care an ordinarily prudent person in a like position would exercise under similar circumstances; and (3) in a manner they reasonably believe to be in the best interests of the corporation. Directors shall conduct the affairs of the Foundation acting honestly and lawfully. This duty of care extends to the University as beneficiary of the Foundation. Directors shall be diligent in their duties to the Foundation and shall act reasonably, remain informed, and exercise independent judgment.

In discharging their duties directors are entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, if prepared or presented by: (1) one or more officers or employees of the corporation whom the directors reasonably believe to be reliable and competent in the matters presented; (2) legal counsel, public accountants or other persons as to matters the directors reasonably believe are within the person’s professional or expert competence; or (3) a committee of the board of directors of which a director is not a member if the director reasonably believes the committee merits confidence.

Duty of Loyalty
Foundation directors owe a duty of loyalty to the Foundation and the University, and shall not use their Foundation position for personal gain. To that end, a director should give undivided allegiance when making decisions affecting the Foundation. The director’s duty of loyalty applies equally whether the director is engaged in Foundation activities or outside activities. The director’s duty of loyalty includes, but is not limited to, the director’s obligation to protect the confidences of the Foundation and to refrain from engaging in transactions that would create a conflict of interest or the appearance of a conflict of interest.

- **Confidentiality.** In the course of carrying out their duties and responsibilities, directors will be privy to information that was created, discovered, acquired or developed by or disclosed to the Foundation and, as such, is considered to be confidential and proprietary in nature. This information includes, but is not limited to, research and development data, business plans, expansion plans or proposals, strategic plans, personnel data, financial statements, lists and information about gifts, donors and accounts. Directors shall recognize that they have a legal and ethical duty not to disclose this information, shall hold all such information in strictest confidence and shall agree not to release confidential and proprietary information to anyone outside the Foundation except for authorized purposes or unless required by law.

- **Conflict of Interest.** A conflict of interest arises in any situation in which a director or a related person is involved in an activity that could adversely affect such director’s judgment with respect to the business of the Foundation or otherwise diminish the interest of the Foundation. Generally, a related person includes one’s own immediate family members and those of his or her spouse; a person with whom one is living; or a business entity, trust or estate in which one has an interest. Certain conflicts of

interest may be approved by the NBG Committee, Executive Committee, or full Board as being in the best interests of the Foundation. Other conflicts, however, may preclude (i) the Foundation or a director from engaging in an activity, or (ii) an individuals from serving as a member of the Foundation Board. Some examples of situations in which a conflict of interest may be present are described in Attachment B to provide guidance. The examples are not intended to identify all potential or actual conflicts of interest.

Continuous Duty to Disclose Actual or Potential Conflicts of Interest
All Foundation directors will be asked to complete and sign a disclosure statement annually. Candidates for director positions shall complete and sign the disclosure statement before their terms begin. The statement will include a description of all material facts relating to any substantive actual or potential conflict of interest for such director by virtue of his or her own activities or that of related persons. Of particular concern are situations in which a director or related person possesses a financial interest not entirely consistent with that of the Foundation, or confidential information which if disclosed could adversely affect the Foundation. Disclosure statements will be provided by and must be returned to the Foundation’s President. If, after completing and signing the annual disclosure statement, an apparent, potential or actual conflict arises, the director with the conflict shall notify the Foundation’s President in writing. The Foundation President’s disclosure statement and any on-going disclosure by the Foundation President shall be made to the Chair of the NBG Committee. All disclosures pursuant to this policy will be treated confidentially.

Addressing Actual and Potential Conflicts of Interest
The following process will be followed in addressing actual and potential conflicts of interest:

- All disclosures made to the Foundation President pursuant to this policy shall be reviewed by the Chair of the NBG Committee.
- If a potential conflict of interest situation involves a pending transaction or action on the part of the Foundation, such potential conflict shall be brought to the attention of the Chair of the NBG Committee prior to any action on the part of the Foundation. The Chair of the NBG Committee shall consult with the director regarding the potential conflict and obtain information necessary for an ordinarily prudent person to make a judgment as to whether a conflict exists.
- The Chair of the NBG Committee shall exercise good faith in determining whether an actual conflict exists and shall provide guidance as to the appropriate course of action if a conflict exists.
- If the Chair of the NBG Committee determines that further review would be prudent, he or she will seek the advice and approval of the full NBG Committee in determining whether such situation or transaction is fair and serves the Foundation’s best interests.
- If the NBG Committee determines that further review would be prudent, it shall seek the advice and approval of the full Board or Executive Committee in determining whether such situation or transaction is fair and serves the Foundation’s best interests.
- The NBG Committee or the Executive Committee shall refer any such matter to the full Board if either such committee has not under the circumstances been appointed by a majority of disinterested directors.
- The Chair of the NBG Committee, the full NBG Committee, the Executive Committee, or the full Board may consult with the Foundation’s General Counsel as appropriate.
Restraint on Participation
Directors have special fiduciary responsibilities that require them to discuss and make decisions concerning transactions undertaken by the Foundation. Directors who have declared or have been deemed to have a conflict of interest must refrain from consideration of proposed transactions, unless for special reason the NBG Committee, Executive Committee, or Board requests information or interpretations or agrees to waive the conflict. Any director with a conflict may not vote, participate in discussion, nor be present at the time of any vote on the proposed action or transaction. The proposed action or transaction in which a conflict of interest has been declared or found to exist must be approved by a majority of the disinterested directors of the NBG Committee, the Executive Committee or, the Board, as appropriate, and the Committee or the Board conducting the vote shall retain detailed minutes of any proceedings involving a potential conflict of interest action or transaction.

Political Activities
Foundation directors should exercise extreme caution whenever it may appear that they are engaging in certain political activities or lobbying on behalf of the Foundation and should consult with the Chair of the NBG Committee or the President prior to any such activity. Directors should be aware that engaging in such activities could threaten the tax-exempt status of the Foundation. Among these activities are the following:

a) engaging in lobbying on behalf of the Foundation; and
b) engaging in any political campaign activity on behalf of the Foundation.

Violations of this Policy
If the Board has reasonable cause to believe a director has failed to disclose actual or possible conflicts of interest, it shall inform the director of the basis for such belief and afford the director an opportunity to explain the alleged failure to disclose. If, after hearing the director’s response and after making further investigation as warranted by the circumstances, the Board determines the director has failed to disclose an actual or possible conflict of interest, it will take appropriate corrective action.

Administration
The Board has the responsibility for and determines changes to this policy. The NBG Committee has oversight responsibility. The Foundation President is responsible for the implementation and adherence to the policy. The Foundation’s Counsel, in consultation with outside counsel, is available for consultation with the President, the NBG Committee, the Executive Committee and the Board, is responsible for matters of interpretation and shall be asked to review the policy periodically for appropriate modifications.
CASE Statement of Ethics

Institutional advancement professionals, by nature of our responsibilities within the academic community, represent our schools, colleges, and universities to the larger society. We have, therefore, a duty to exemplify the best qualities of our institutions and to observe the highest standards of personal and professional conduct.

We conduct ourselves in a manner which is consistent with the best interests of the institution we represent.

Our words and actions embody respect for truth, fairness, free inquiry, and the opinions of others.

We promote the merits of our institutions, and of education generally, respecting both our colleagues and the mission of each institution.

We respect, celebrate, and include all individuals regardless of race, gender, sexual orientation, ethnicity, nationality, physical ability, or age. We uphold the professional reputation of colleague advancement professionals and give credit for ideas, words, or images originated by others.

We communicate clearly and fairly with others, remaining mindful of the importance of representing our institution’s mission and interests.

We safeguard privacy rights and confidential information.

We do not grant or accept gifts or services for personal or individual professional gain, nor do we solicit or accept gifts or services for our institutions in which a higher public interest would be violated.

We avoid actual or apparent conflicts of interest and, if in doubt, seek guidance regarding how to proceed.

We report transgressions and/or unethical activities to the appropriate authority in order that the institution take the necessary action.

We bring abusive and/or harassing conduct to the attention of institutional leadership in order that individuals who have been subject to such abuse are protected.

We follow the letter and spirit of pertinent laws and regulations, understanding that those strictures might be different in other countries and cultures.

We align the policies and procedures of our department with those of other departments, in order that the institution can have a holistic and integrated approach to ethical conduct.

We observe these standards and others that apply to our profession and actively encourage colleagues to join us in supporting the highest standards of conduct.
Examples of situations presenting potential conflicts of interest

The following are examples of situations in which a conflict may be present. These examples do not represent all potential situations that might give rise to a conflict.

- Purchasing supplies, equipment, or services from a vendor in which a director has an ownership interest or with which a related person might benefit from the transaction.

- A directorship or active participation in an organization that transacts business with the Foundation or whose interests compete with those of the Foundation (such as serving as a member of the governing board, being employed by, or working as a consultant to any other higher educational institution or affiliate, any other hospital or affiliate, or any other nonprofit or for-profit organization located in Connecticut or elsewhere, public or private, which may be in competition with the Foundation and/or the University for state appropriations or other funding, faculty, students, patients, or donors).

- Investment by the Foundation with a firm in which a director or a related person is an owner, officer, board member, partner, employee, or has some other significant beneficial interest.

- Investment by the Foundation with a firm in which another organization has a controlling or significant beneficial interest (other than side by side investor situations) and a director or related person is an owner, officer, board member, partner, employee or has some other significant beneficial interest with the other organization.

- Investment by the Foundation in any investment opportunity of which the Foundation is reasonably aware that a director or a related person already has a personal investment which is material to him or her, or which is material to the size of the overall investment fund. For purposes of materiality a 5% guideline may be considered, however, each situation should be assessed on its own merits.

- Use of information obtained from the Foundation for personal gain or benefit.

- Acceptance by a director or a related person of any personal benefit that results from the execution of the director’s duties as a Foundation director and is not otherwise available to the general public. For example, if a director makes an investment in common with the Foundation where:
  - The director became eligible to make the investment solely because of his or her membership on the Board;
  - The director’s minimum investment requirement in a particular investment fund was waived because such individual is a member of the Board and the Foundation was also an investor in the fund; or
  - The director first acquired information concerning the investment from the Board and the investment was not widely available to the public, even if the opportunity was one for which the director might subsequently have been an eligible investor.

- Investment by a director or a related person in any investment opportunity of which the director is reasonably aware that the Foundation already has an investment in under circumstances in which:

- the investment of a director or a related person is material to him or her, or
- the investment by either the Foundation or director (or a related person) is material in relation to the size of the overall fund.

Check if your organization is covered by the General Rule or a Special Rule.

Note: Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions.

General Rule

☐ For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling $5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions.

Special Rules

☐ For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(a)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of (1) $5,000; or (2) 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II.

☐ For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than $1,000 exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I (entering "N/A" in column (b) instead of the contributor name and address), II, and III.

☐ For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions exclusively for religious, charitable, etc., purposes, but no such contributions totaled more than $1,000. If this box is checked, enter here the total contributions that were received during the year for an exclusively religious, charitable, etc., purpose. Don't complete any of the parts unless the General Rule applies to this organization because it received nonexclusively religious, charitable, etc., contributions totaling $5,000 or more during the year.

Caution: An organization that isn't covered by the General Rule and/or the Special Rules doesn't file Schedule B (Form 990), but it must answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it doesn't meet the filing requirements of Schedule B (Form 990).

Section 6.6 – Finance Committee

The Finance Committee shall consist of at least seven Board members. The responsibilities of the Finance Committee shall be to ensure the fiscal stability and long term economic health of the Corporation; review and recommend financial policies to the Board; monitor financial operations; review and approve the annual operating and capital budgets prior to submission to the Board, and monitor Board-approved budgets; review and recommend the incurrence of any indebtedness by the Corporation, and review and monitor compliance with covenants of such indebtedness; ensure that accurate and complete financial records are maintained; and ensure that timely, accurate and meaningful financial information is presented to promote sound understanding by the Board as a whole of the Corporation’s finances.
Section 6.7 – Investment Committee

The Investment Committee shall consist of at least five Board members. The responsibilities of the Investment Committee shall be to develop investment policies for submission to the Board of Directors. The Investment Committee shall select investment manager(s) and vehicle(s) consistent with Board-approved policy.

The Investment Committee may recommend to the Board of Directors investment agent(s) or consultant(s) to assist in investment manager searches and policy development, and to monitor investment performance and investment policy compliance.

The Investment Committee shall meet not less than four times annually to review performance, investment transactions, investment policies, and policy compliance, utilizing one or more investment consultants if the Committee deems appropriate. The Committee shall receive reports from managers and/or Foundation staff regularly on performance, strategy and significant transactions. The Investment Committee shall meet with each investment manager in compliance with operating guidelines developed by the Investment Committee and with a frequency consistent with the doctrines of prudent investing.

Section 6.8 – Nominating and Board Governance Committee

The Nominating and Board Governance Committee shall consist of at least five Board members. The responsibilities of the Nominating and Board Governance Committee shall be to strengthen the future of the Corporation by engaging in long range planning at the request of the Board; conducting an annual review of the Foundation mission statement and bylaws, and identifying and recruiting candidates for the Board of Directors and the offices of the Corporation.

The Nominating and Board Governance Committee shall submit to the Board of Directors recommended candidates to serve as elected directors and officers of the Corporation as provided in these bylaws. This Committee shall submit to the Board of Directors at least one qualified nominee for each such position to be filled. Additional nominations may be made by any member of the Board of Directors.

This Committee shall nominate members for the various standing committees and each committee’s Chair. Nominations will be presented to the Board of Directors by the Chair of the Nominating and Board Governance Committee with sufficient time in advance of the annual meeting each year.

Whenever a vacancy occurs on the Board of Directors whether by death, resignation, removal or termination of requisite status, the individual selected shall be chosen according to Section 2.5. If a majority of elected positions are filled, the vacancy may remain unfilled until the next annual class of nominees is presented to the Board or until such time as it shall be practical to be filled. It will be the responsibility of the Chair of the Nominating and Board Governance Committee to recommend nominees for the vacant position to the Board of Directors. However, the Board may act to appoint a person to fill the vacancy or may elect to leave the vacancy unfilled. The Nominating and Board Governance Committee also shall oversee the following aspects of Board and committee administration: new member orientation; evaluation and self-assessment at
committee and full board levels; administration of meeting attendance requirements; assuring the planning of Board retreats as appropriate; and overseeing the conflict of interest disclosure process of the Board.

The Committee shall also submit to the Board of Directors recommended candidates to be approved by the Board of Directors for nomination for election to the University’s Board of Trustees as an alumns trustee as required to meet the Corporation’s responsibilities as the University’s designated alumni association under C.G.S. 10a-103.

Section 6.9 – Subcommittees

Standing committees may appoint subcommittees as necessary in connection with the respective duties of the committee.

Section 6.10 – Board Ex-Officio Committee Members

The Chair and President of the Corporation shall be ex-officio members of all standing committees and subcommittees. Such individuals serving as ex-officio committee members, however, shall not be entitled to vote and shall not be counted for quorum purposes on any committee except the Executive Committee or a committee on which the Board has appointed such individual as Chair or as a voting member. Such ex-officio committee members, moreover, shall not be counted toward satisfaction of the numerical membership requirements of the standing committees provided above.

Section 6.11 – Non-Board Committee and Subcommittee Members

The Board of Directors may appoint non-Board members as consultants or advisory members with non-voting status to any of the standing committees or subcommittees, not including the Executive Committee, when the Board believes their expertise to be helpful to the respective committee, but in no event shall the number of non-Board members exceed the number of Board members on any committee or subcommittee. The designation and appointment of any such committee or subcommittee and delegation thereto of authority shall not operate to relieve the Board of Directors or any individual director of any responsibility imposed upon him or her as a director.

Article VII – Miscellaneous

Section 7.1 – Minutes

The Board of Directors, the Executive Committee, all standing committees and all subcommittees shall keep a record of proceedings and shall report these proceedings to the Board of Directors at or before the regular meeting thereof held next after they have been taken.
Section 7.2 – Fiscal Year

The fiscal year of this corporation shall begin on the 1st day of July.

Section 7.3 – Corporate Seal

The seal of this corporation shall have inscribed thereon the name of the corporation and the word "Seal". The use of the seal shall be symbolic only and shall not be required to bind the corporation or to evidence any official act, document or instrument.

Section 7.4 – Annual Audit

At least once during each fiscal year of the Corporation, the directors shall cause to be made an independent audit of the corporate fiscal records, including records of assets, liabilities, gains, losses, receipts, disbursements, investments and other transactions.

Section 7.5 – Rules of Order

The rules contained in Robert’s Rules of Order, latest edition, shall govern any meeting of the Board of Directors or any committee or subcommittee thereof, unless otherwise provided under these bylaws or the certificate of incorporation.

Section 7.6 – Executive Sessions

During any regularly called meeting, the Chair of the Board of Directors may call an Executive Session of the Board, and the Chair of any committee may call an Executive Session of such committee, if deemed necessary by such Chair and if the members of the Board or committee concur, for the purpose of discussing any matters of business which the Board or committee may consider confidential or sensitive. Only voting members of the Board of Directors and individuals invited by such Board members may be present during Executive Session. Any action with respect to matters discussed in Executive Session shall be conducted before the full Board or committee, as the case may be.

Section 7.7 – Amendments

Any of these bylaws may be altered, amended or repealed and additional bylaws may be adopted by the Board of Directors at any annual meeting or at any regular or special meeting called for the purpose, provided that written notice of such proposed action shall have been given in the notice of any such meetings, whether annual, regular or special. For purposes of this Section, the act of two-thirds of the directors present at a meeting at which a quorum is present at the time of the act shall be the act of the Board of Directors provided no alteration, amendments or repeal of any provision herein which is substantially similar to any provision contained in the certificate of incorporation shall be effective unless the certificate of incorporation be amended to reflect such alteration, amendment or repeal.
